

Rimes BDS

Powering State Street AlphaSM & Charles River Index Data Service

Rimes Technologies' Benchmark Data Service (Rimes BDS) is now the preferred Benchmark/Index data solution within State Street Bank & Trust's Alpha Data Services (ADS) and Charles River (CRD) platforms. State Street and Rimes have been partnering for close to 10 years meeting the benchmark data management needs of our joint asset management clients through State Street's asset management services.

Together, we have expanded that partnership to help deliver a "best of breed" solution set that enables existing and potential ADS and CRD clients to maximize operational efficiency and scalability, improve data quality, and minimize the internal costs of benchmark data management while limiting operational and regulatory risks, and maintaining full control.

Potential Client Benefits

Operational & Technology Benefits

- Increased operational governance
- Reduced operational risk
- Reduced operational (TCO) and project costs
- Improved overall ROI of middle office operations
- Simplified internal and operational processes
- Improved overall time to market
- Enhanced operational responsiveness
- Clients insulated from vendor feed/methodology changes

Business Benefits

- Optimized client experience – integrated service provider and business solution
- Resources freed to focus on core business activities
- Improved transparency and lineage
- Highest benchmark quality control standards in the market
- Improved productivity and output
- Enhanced business agility

Why Rimes BDS?

The Rimes Benchmark Data Service (BDS) is an award-winning* service using specialist knowledge to provide a comprehensive solution to index and benchmark data management challenges.
